And there's Russell and Skip.

Stand up straight

Wiggle your legs

and skip in place

This song is silly, but it's hip.

Make a silly face

Stick out your right hip and point to it

How it ends, just one man knows.

Science/Body Parts

Play "Simon Says Go Faster"

Introduce the game by pointing to body parts such as those named in the song. Then each time you say, "Simon says go faster" point to those body parts a little faster. The faster you go, the sillier the game becomes. Make it more challenging by adding additional body parts such as thighs, calves or ankles. Remember, in this version of Simon Says children **DO NOT** go out. They just go **FASTER!**

FUN FACT: Did you know that laughing lowers levels of stress hormones and strengthens the immune system. Six year olds laugh an average of 300 times a day. Adults only laugh 15 to 100 times a day!
